Prepared by:

Oct, 2018.

This list is prepared WITHOUT PREJUDICE.

Below is a list of refereed journals derived from a variety of sources. The list includes:

- Active journals with the most recent website, if available. In some cases, websites cannot be verified and in other cases no websites may be available
- Chinese, Japanese, Korean and some other titles have been translated into English.
- Possible 'predatory journals' as identified as by Beall (<https://beallist.weebly.com/>). Please see the website for the qualifiers involved in this determination.
- Some defunct journals that are no longer being published.

At the time of writing, more than 330 dedicated journals have been identified.

The list includes only those journals that focus exclusively or primarily on tourism, hospitality or events and does not include journals that relate to such fields of study as leisure, recreation, sports, food science and the like.

While not complete, it does represent the most comprehensive list available.

Their status has not been confirmed by the producers of this list and so, the list is being presented without prejudice.

Please note – there is a huge difference between legitimate open access journals and predatory journals. Increasingly, legitimate journals are offering authors an open access option, usually after the paper has gone through the rigorous refereeing process.
